

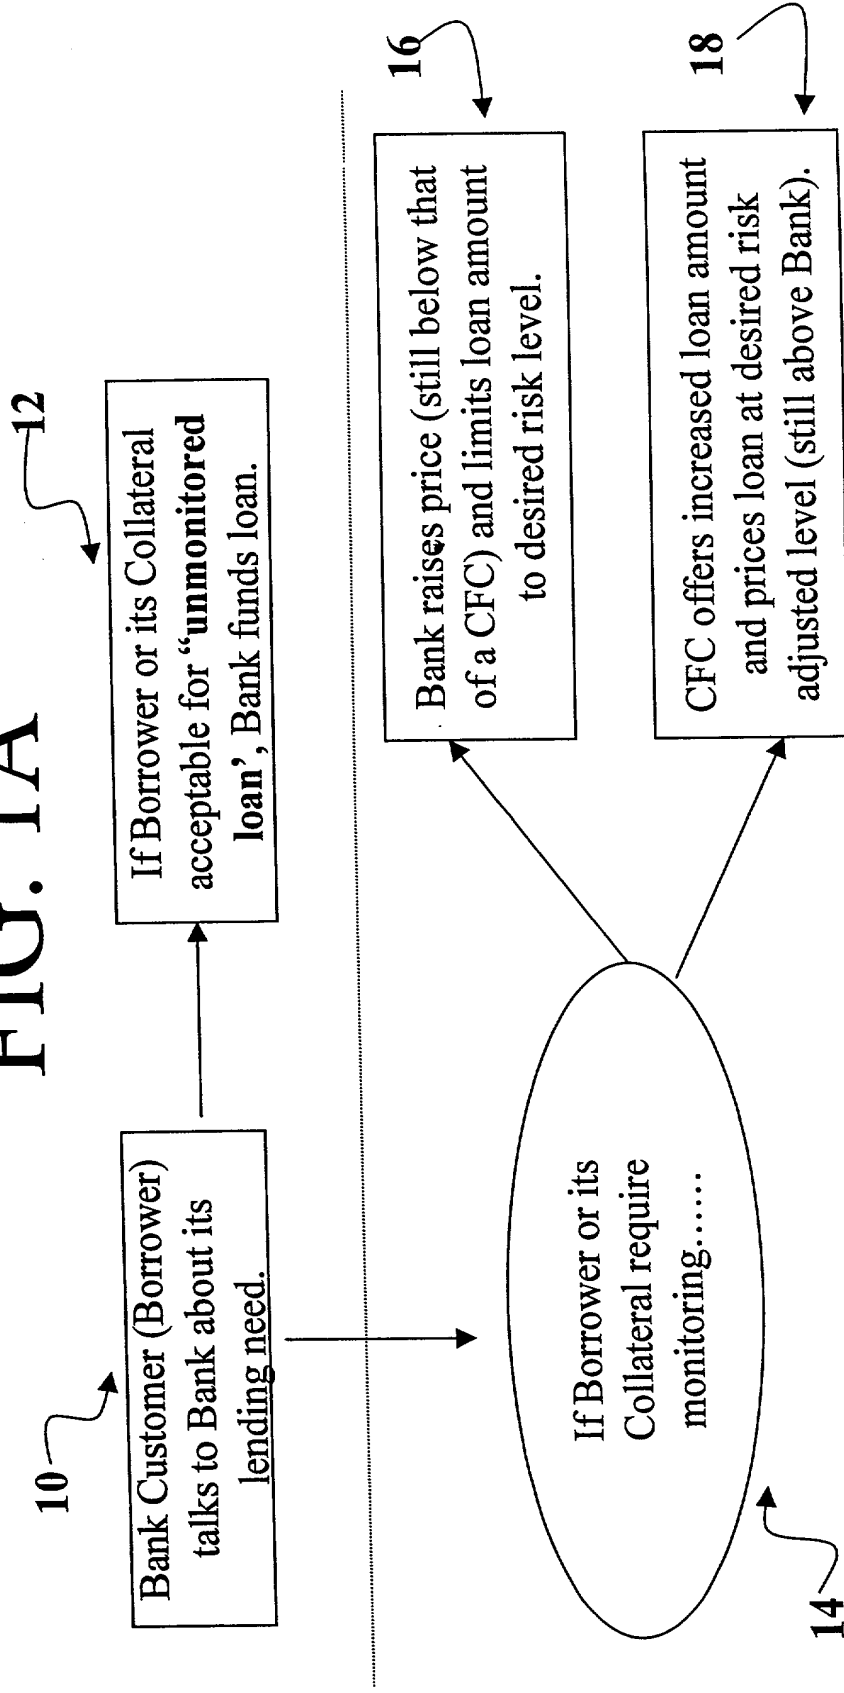

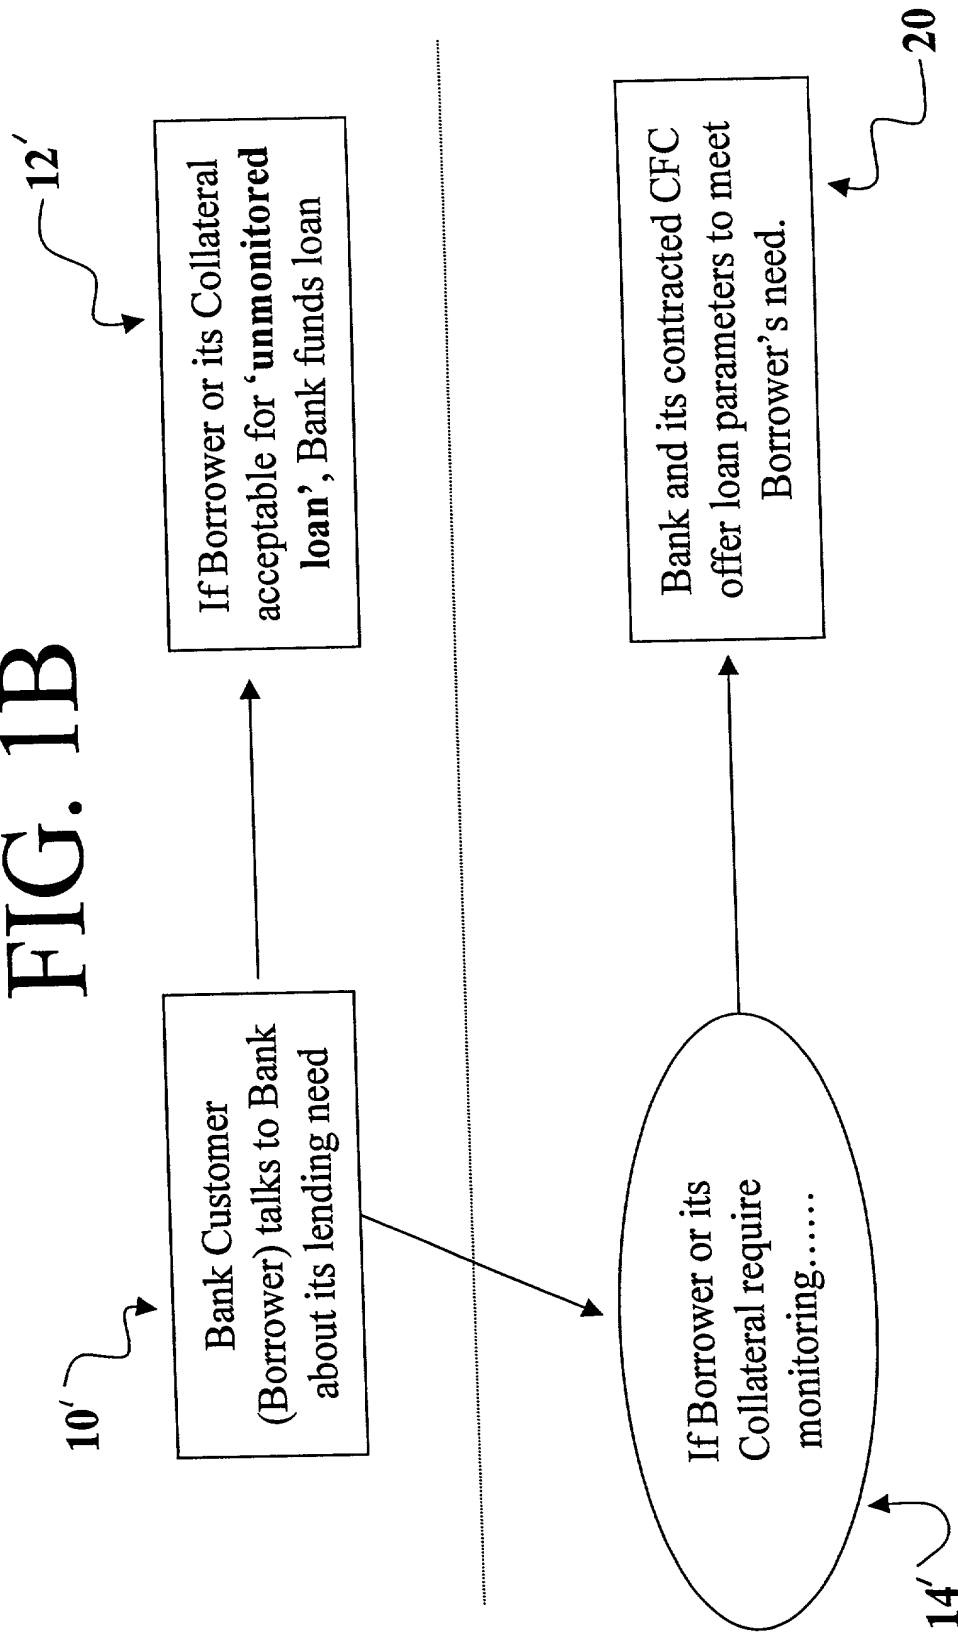

FIG. 1A

The Competition for the "monitored loan" continues until the Borrower chooses. The "unequal" competitors push their unique advantage. During good economic times when money is in abundance, one of the competitors will match the other's advantage, even to the detriment of themselves and the Borrower.

FIG. 1B

The Competition for the "monitored loan" will now occur between 'equal' competitors (Banks in conjunction with their contracted CFCs). The competitive advantages will be normal, market driven determinants such as speed of delivery, overall customer service, performance or volume pricing, etc.

FIG.2A - PRESENT DELIVERY PROCESS (in general)
